I. SPECIAL NOTICES

EXCERPT FROM THE FEDERAL REGISTER

Federal Register: July 1, 2003 (Volume 68, Number 126)

DEPARTMENT OF COMMERCE, National Oceanic and Atmospheric Administration, 15 CFR Part 922

Florida Keys National Marine Sanctuary: Establishment of Temporary No-Entry Zone in the White Bank Dry Rocks Area. AGENCY: National Ocean Service (NOS), National Marine Sanctuary Program. ACTION: Temporary rule.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA) issues a temporary rule prohibiting all entry into two areas off the east side of Key Largo within federal waters of the Florida Keys National Marine Sanctuary. The combined areas are approximately 0.50 square miles in size. This temporary rule is necessary to prevent injury to, and destruction of, living coral from stress to diseased coral within the close areas, and to protect healthy coral from human-caused contamination.

DATES: Entry is prohibited effective June 26, 2003 until August 25, 2003.

FOR FURTHER INFORMATION CONTACT: Billy D. Causey, Superintendent, Florida Keys National Marine Sanctuary (FKNMS), Post Office Box 500368, Marathon, Florida 33050, (305) 743-2437.

SUPPLEMENTARY INFORMATION: NOAA is by this rule immediately prohibiting all entry into two areas off of Key Largo within federal waters of the Florida Keys National Marine Sanctuary (FKNMS). This action is taken in accordance with 15 CFR 922.165 of the FKNMS regulations (62 FR 32154, June 12, 1997). Section 922.165 provides that, where necessary to prevent or minimize the destruction of, loss of, or injury to a Sanctuary resource, any and all activities are subject to immediate temporary regulation, including prohibition, for up to 60 days, with one 60-day extension.

IV. CHART CORRECTIONS

(Explanation of Format)

Corrective action affecting charts is contained in this section. Chart corrections are listed numerically by chart number, beginning with the lowest and progressing through all charts affected. The correction listed pertains to that chart only. It is up to the mariner to decide which charts are to be corrected. The following example explains the individual elements of a typical correction.

Chart number	Chart edition	Edition date	Last Local Notice to Mariners	Reference datum	Source of correction	Current Notice to Mariners
11534	26th ed.	12/14/91	LAST LNM 41/92 Myrtle Grove Sound to Fear River to Casino Creek Add *Boguse Channel Light 1, Fl G 2.5s, 16 ft, 7M	NAD 83	(CDG07)	45/00
			(Temp) indicates Temporary Correction			
			Object of corrective			Position action

The letter (M) immediately following the chart number indicates that the correction should be applied to the metric side of the chart only. (TEMP) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (m). (*) Asterisk is used to identify Private Aids.
